For further candidate substances, we are not expecting an exceeding of the threshold of 0.1 mass% in our articles and are in a constant dialogue with our suppliers, especially after an expansion of the candidate list.

### Authorisation of substances, REACH Annex XIV:

Some Phtalates have been included in Annex XIV of the REACH regulation and, after the "sunset-date" won't be allowed to be used without authorisation.

We would like to note, that the obligation for authorisation does not prohibit making articles available on the market that contain this substance. In case that the obligation for authorisation will have an impact on the product design and composition, you will be informed in time.

### Restriction of substances, REACH Annex XVII:

Our products comply with the substance restrictions of annex XVII REACH regulation. In case of product-relevant alteration, you will be informed in time about changes and the process of substitution on the HELUKABEL homepage.

With best regards
