

HELUKABEL® Expands Robotic Services Division with Acquisition of ROBOTEC SYSTEMS

ELGIN, Illinois – Effective July 1, 2012, HELUKABEL® acquired ROBOTEC SYSTEMS GmbH of Kamp-Lintfort, Germany making it a fully-owned subsidiary. HELUKABEL®'s former robotics business unit, HELUROBOTICS®, will merge with the newly acquired subsidiary and operate under the ROBOTEC SYSTEMS name. The new ROBOTEC SYSTEMS will offer the complete range of robotic cabling services from system analysis, consultation and planning to design, installation and warranty maintenance.

The combination of the two robotic entities will provide stronger market penetration around the globe by further advancing robotic cable systems for industries that rely heavily on the use of robots for automated work flow, e.g. the automotive manufacturing industry.

“ROBOTEC SYSTEMS’ years of experience added to the established robotic capabilities of HELUROBOTICS®, will enable HELUKABEL® to continue offering U.S. and Canadian customers enhanced levels of robotic services,” said HELUKABEL® USA President Marc Luksch.

About HELUKABEL® USA

Established in 2007, HELUKABEL® USA is the North American headquarters for Germany-based parent company, HELUKABEL®. With over 30 years of industry experience, HELUKABEL® is one of the most successful companies in the field of cable and wire, specialty cable, and cable accessories. HELUKABEL® employs approximately 800 people worldwide and markets its portfolio of cables and wires to companies around the globe.
