Perfect for cabinets – Simplify your installations!

HELUTOP® Easy
Threadless cable gland for simple and quick assembly without any tools
HELUTOP® Easy

With the new HELUTOP® Easy cable gland conventional fastening techniques like threaded holes and locknuts are unnecessary. A unique spring/snap system allows for quick and easy installation in hard-to-reach areas and in no-access spaces where locknuts can’t be used. No tools are required.

Assembly - so easy

Disassembly - almost as easy

1. Push gland into opening
2. Tighten gland clockwise – finished

1. Loosen the gland by pressing the disassembly tool on the closure
2. Pull out gland – finished

Advantages

✓ No tools required for installation
✓ No threaded holes required
✓ No locknuts required
✓ Same clamping range as HELUTOP HT-Series
✓ VDE-according to DIN EN 62444
✓ Gland and cable will be fixed with clockwise thread
✓ Installation in tight areas and no-access spaces (locknut side)
✓ Assembly: push cable gland in and turn clockwise – can be done by hand
✓ Cable gland fits as tightly as traditional gland held in place with threaded hole or locknut
✓ Hexagon of body and cap are same spanner size
✓ Large wall thickness range: 0.5 - 4.0 mm
✓ Quick and easy disassembly with separate tool. No damage to cable gland or wall.
**Technical Data**

**Material**
- Body: PA 6
- Cap: PA 6
- Seal: CR
- Washer: CR
- Quick fitting lower body: PA 6

**Flammability:** V2 (acc. to UL 94)

**Protection class:** IP66 / IP68 - 5 Bar

**Operating temperature:** -20°C up to +100°C  
(intermittent: -30°C up to +150°C)

**Approval:** VDE acc. to DIN EN 62444

**Other colours on request**
- Grey RAL 7001, black RAL 9005
